

What you need:

- Your Epson printer
- Good quality A4 paper or card
- Scissors
- Glue

Instructions:

1. Make sure your printer's properties are set to high-quality, colour printing.
2. Print and cut out your haunted house template, making sure you cut around the tabs.
3. Fold down the tabs and make additional folds along the dark lines separating the different sides of the house and roof.
4. Using the dark grey rectangle as your base, fold up the main walls and glue the largest tab to the underside of the roof to form the basic structure.
5. Now fold up the side walls and glue them into place using the tabs.
6. Use your haunted house to spread some Halloween cheer (and fear).
