

**What you will need:**

- Your Epson printer
- Good quality A4 paper or card
- Scissors
- Paper glue
- Thread or ribbon

**Instructions:**

1. Make sure your printer's properties are set to high quality, colour printing
2. Print and cut out the two star shapes. Make sure you cut around the white tabs, too
3. Fold along the dotted lines to create half a 3D star out of each shape
4. Join the two halves together and glue in place using the tabs
5. Make a small hole at one tip or use glue to attach thread or ribbon so you can hang up your star
