PaperLab Engineer Profile

Name: Mr. Shigeo Fujita  
Position: Manager, Paperlab Business Project

Born on January 31, 1966, Mr. Fujita was brought up in Osaka, Japan. After studying machine engineering at the Faculty of Engineering of Tokushima University, he worked as a laser printer engineer in his hometown before joining Epson from 1999. His first position at Epson involved developing laser printers before he moved to R&D. He began working on the PaperLab development project in 2011.

Mr. Fujita enjoys DIY and renovating the old house he bought. He also enjoys gardening and trying to grow different types of plants every year.

(As of March 2017)
