Facestock
A matt white, coated paper with a highly absorbent surface structure specifically designed for waterbased inkjet printing. The facestock is made from FSC® certified paper (FSC Mix Credit, chain-of-custody number: CU-COC-807907, Licence Code: C004451).

Basis Weight
70 g/m² ISO 536
Caliper
92 µm ISO 534
Adhesive
A general purpose permanent, acrylic based adhesive.

Liner
BG40 white, a supercalendered glassine paper.

Basis Weight
61 g/m² ISO 536
Caliper
54 µm ISO 534
Laminate
Total Caliper
161 µm±10% ISO 534

Performance data
Initial Tack
16 N/25mm FTM 9 Glass
Peel Adhesion 90°
9 N/25mm FTM 2 St.St.
Min. Application Temp.
0 °C
Service temperature
-20°C to 80°C

Adhesive Performance
The adhesive is characterized by a high initial tack, excellent adhesion and good low temperature performance on a wide variety of substrates.

Applications and use
The product is used in a variety of labelling applications, when the advantages of digital printing: short runs, last minute changes, personalised layouts and fast turn-round full colour printing are required. The product is a result of the emerging demand for short run ‘quality’ colour print, both in business and at home. The face material is designed to give excellent density, print definition and vivid colours with photo ink. Quick drying and enhanced moisture resistance offer good handling after printing.

Conversion & printing
In addition to inkjet the material can be printed by conventional technologies; we recommend flexo for best results using low viscosity inks, the ink absorbent consumption may be high due to the nature of the facestock

Special Approvals
The adhesive complies with the European food directives and legislations, FDA 175.105 and the German recommendations XIV as published by BfR. BfR (Bundesinstitut für Risikobewertung) is the German Federal Institute for Risk Assessment. The adhesive side may stand in direct contact with dry, moist and such fatty foodstuffs which have a correction factor of at least 3 according to the Regulation (EU) No 10/2011.

Shelf life
Two years under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
