**Facestock**
A glossy white conformable polypropylene with highly absorbent surface structure specifically designed for water-based inkjet printing (WBIJ) with both dye and pigment based inks.

- **Basis Weight**: 83 g/m²
- **Caliper**: 80 µm

**Adhesive**
A general purpose permanent, acrylic based adhesive.

**Liner**
BG40 white, a supercalendered glassine paper.

- **Basis Weight**: 61 g/m²
- **Caliper**: 54 µm

**Laminate**
Total Caliper 153 µm±10%

**Performance data**
- **Initial Tack**: 11 N/25mm
- **Peel Adhesion 90°**: 7 N/25mm
- **Min. Application Temp.**: 5 °C
- **Service temperature**: -20°C to 80°C

**Adhesive Performance**
S692N is a clear permanent adhesive featuring excellent UV resistance and weatherability together with good adhesion performance, even on apolar substrates.

**Applications and use**
The product is used in a variety of labelling applications printed with WBIJ technology, where there is a need for conformability to a container shape. This facematerial is ideal for labelling of plastics e.g. PE containers. The face material is designed to give excellent density, print definition and vivid colours with photo ink. Quick drying and enhanced moisture resistance offer good handleability after printing.

Special care should be given during dispensing around the gum free area.

**Conversion & printing**
The material has been designed for water-based inkjet printing. Due to the nature of this printing technology, applications that require a high level of waterfastness may need overvarnishing to protect the print.

The special product lay-out could have an influence on conversion speed.

**Special Approvals**
S692N complies with European food regulation 1935/2004/EC, with the German Recommendation (BfR) XIV and with FDA § 175.105. It also meets the demands of the limit values laid down in 10/2011/EU. In accordance with the requirements of relevant EU food regulations, the adhesive S692N may safely stand in direct contact with dry, moist and fatty foodstuffs which have a reduction factor of at least 3 according to the Commission Regulation (EU) No 10/2011.

**Shelf life**
One year under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
